“It is clear that landowners retaining vegetation remnants or revegetating cleared landscapes to restore habitat will play a major role in the long term survival of koalas.”

Message from Councillor Kim Marx

I have some good news to report that after investigations of illegal trail bike riding into Karawatha Forest, Council has installed a new fence behind already existing property fences to stop illegal entry. This is an indicator that Brisbane City Council is serious about cracking down on illegal trail bikes within the Forest. I am also investigating other areas within the fenced boundary of the forest where residents are seeking pedestrian access. All suggestions welcome.
